

PRODUCT INFORMATION SHEET

These items were imported by: -
Just 1 Source & Supply Limited, Barton Hill, Whitwell, York. YO60 7JX
Telephone: 01653 617718 - www.just1source.com

These items comply with the requirements of the EU Regulation 2016/425 & Regulation 2016/425 on personal protective equipment, as amended to apply in GB, in line with the Harmonised/Designated/Technical Standards referenced below.

NOTE: - Declarations of Conformity can be found at www.just1source.com

Type "A" gloves are recommended for processes other than TIG Welding when high dexterity Type "B" gloves are recommended.

NOTE: - There is no standardised test method at present for detecting U.V. penetration of materials for gloves but the current methods of construction of protective gloves for welders do not normally allow penetration of U.V.

Limitations of use:

EN 388:2016 + A1:2018, EN ISO 21420:2020, EN 12477:2001 + A1:2005 - The overall classification of gloves with two or more layers does not necessarily reflect the performance of the outermost layer.

Gloves should not be worn when there is a risk of entanglement by moving parts or machinery.

The EN388 test results shown below are taken from the palm area of the glove.

Protection is limited to the hand area only.

EN 388:2016 + A1:2018

4123X

EN ISO 21420:2020

EN 407:2020

413X4X

European Standards - TYPE A – EN 12477:2001 + A1:2005

Test	Performance Level	Test	Performance Level
EN 388:2016 + A1:2018		EN 407:2020	
Abrasion	4 (Scale 1-4)	Burning Behaviour	4 (Scale 0-4)
Blade Cut	1 (Scale 1-5)	Contact Heat	1 (Scale 0-4)
Tear	2 (Scale 1-4)	Convective Heat	3 (Scale 0-4)
Puncture	3 (Scale 1-4)	Radiant Heat	X (Scale 0-4)
ISO 13997 Cut (TDM)	X (Scale A-F)	Small Molten Splash	4 (Scale 0-4)
Impact Protection	(P if passed)	Large Molten Splash	X (Scale 0-4)

Performance levels are measured where the highest number indicates the best protection.

"X" indicates that the product has not been tested against this risk

Product Code: -

RSW1C-REV

Size: - **11**

Product Description: -

Predator Lightning Ambidextrous MIG Welding Gauntlet - Green

Gauntlets providing protection against mechanical risks and thermal risks. Suitable for use in manual metal welding, cutting and allied processes.

Maintenance: examine gloves for damages, splits and holes before each use. Always replace damaged gloves.

Disposal – Dispose of used gloves as instructed by your local authority

STORAGE: Store in dry ambient conditions

AFTERCARE: No Cleaning Treatment

EU Type Certification issued by **Intertek Italia Spa**,
Via Guido Miglioli,2/A - 20063 Cernusco sul Naliglio
(MI) Italia – **Notified Body 2575**

UK Type Certification issued by **ITS Testing Services (UK) Ltd**, Centre Court, Meridian Business Park,
Leicester. LE19 1WD – **Approved Body AB 0362**
