### Limitations of use:

EN 388:2016 + A1:2018, EN ISO 21420:2020; EN407:2020 - The overall classification of gloves and sleeves with two or more layers does not necessarily reflect the performance of the outermost layer. Sleeves should not be worn when there is a risk of entanglement by moving parts or machinery. The EN 388 test results shown below are taken from a section of the sleeve

**Warning:** This product is not intended as a replacement for welding sleeves
