These items comply with the requirements of the EU Regulation 2016/425 & Regulation 2016/425 on personal protective equipment, as amended to apply in GB, in line with the harmonised and designated standard(s) referenced below.

NOTE: Declaration of Conformity can be found at www.just1source.com

Limitations of use:

EN 388:2016 + A1:2018, EN 511:2006 and EN ISO 21420:2020 - The overall classification of gloves with two or more layers does not necessarily reflect the performance of the outermost layer. Gloves should not be worn when there is a risk of entanglement by moving parts or machinery. The EN 388 test results shown below are taken from the palm area of the glove.

NOTE: Due to the nature of this product the user is advised to carry out their own risk assessment depending on application. Temperature durations can be found under Annex B of EN 511:2006. These gloves may lose their insulative properties when wet.
