**Limitations of use:**

EN 388:2016 + A1:2018, EN ISO 21420:2020, EN407:2020 - The overall classification of gloves with two or more layers does not necessarily reflect the performance of the outermost layer. Gloves should not be worn when there is a risk of entanglement by moving parts or machinery.

The EN388 test results shown below are taken from the palm area of the glove.

Protection is limited to the hand area only
