+ A1:2018 4243X

EN407:  
2020 : 41314X

### Applications include:

ARC Welding, Construction, Fabrication, Forging, Metalwork, MIG Welding

## Limitations of Use

### Maintenance

Examine gloves for damages, splits and holes before each use. Always replace damaged gloves. Only properly fitting gloves guarantee protection and grip.

### Storage

Store at normal room temperature in a dry, well ventilated area. Avoid direct heat radiation.

### Disposal

Used gloves can be contaminated. Dispose with household waste or as instructed by your local authority.

### Cleaning

Do not wash. The performance of the product after laundering is unknown. Beat or brush out after each use, depending on level of dirt.

### Durability

The period of use depends on the degree or intensity of use in the retrospective application. It is therefore not possible to provide a 'life span' of the gloves.

### Note

Due to the nature of this product the user is advised to carry out their own risk assessment before use, depending on application.

**Hands Protected; Work Perfected**
