EN407:2020

X1XXXX

UK  
CA  
CE

Code: SN13DTQ

Carton: 120 Pairs

Liner: UHMWPE/  
Spandex

EN388:2016  
+ A1:2018 4X42D

Size: 6 to 11

EN407:2020 X1XXXX

Gauge: 13

Coating: Sandy Nitrile

## Applications include:

Agriculture, Construction, Cut Risk Areas, Engineering, Glass Handling, Metal Handling

## Limitations of Use

|                    |                                                                                                                                                                    |
|--------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Maintenance</b> | Examine gloves for damages, splits and holes before each use. Always replace damaged gloves. Only properly fitting gloves guarantee protection and grip.           |
| <b>Storage</b>     | Store at normal room temperature in a dry, well ventilated area. Avoid direct heat radiation.                                                                      |
| <b>Disposal</b>    | Used gloves can be contaminated. Dispose with household waste or as instructed by your local authority.                                                            |
| <b>Cleaning</b>    | Do not wash. The performance of the product after laundering is unknown. Beat or brush out after each use, depending on level of dirt.                             |
| <b>Durability</b>  | The period of use depends on the degree or intensity of use in the retrospective application. It is therefore not possible to provide a 'life span' of the gloves. |
| <b>Note</b>        | Due to the nature of this product the user is advised to carry out their own risk assessment before use, depending on application.                                 |

**Hands Protected; Work Perfected**
