These items comply with the requirements of the EU Regulation 2016/425 & Regulation 2016/425 on personal protective equipment, as amended to apply in GB, in line with the harmonised and designated standard(s) referenced below.

NOTE: - Declarations of Conformity can be found at www.just1source.com

Limitations of use:

EN 388:2016 + A1:2018, EN407:2020; EN ISO 21420:2020 - The overall classification of gloves with two or more layers does not necessarily reflect the performance of the outermost layer. Gloves should not be worn when there is a risk of entanglement by moving parts or machinery.

The EN 388 test results shown below are taken from the palm area of the glove.

These gloves have been tested and approved for use in food industries, under BS EN 1186. For use with foods that are hydrophilic and/or acidic nature
