These items comply with the requirements of the EU Regulation 2016/425, in line with the harmonised standard(s) referenced below.

NOTE: - Declarations of Conformity can be found at www.just1source.com

Limitations of use:

EN 388:2016 + A1:2018, EN 511:2006 and EN ISO 21420:2020 - The overall classification of gloves with two or more layers does not necessarily reflect the performance of the outermost layer. Gloves should not be worn when there is a risk of entanglement by moving parts or machinery. The EN 388 test results shown below are taken from the palm area of the glove.

NOTE: Due to the nature of this product the user is advised to carry out their own risk assessment depending on application. Temperature durations can be found under Annex B of EN 511:2006. These gloves may lose their insulative properties when wet.

EN 388:2016 + A1:2018

Newton	≥2	≥5	≥10	≥15	≥22	≥30

EN 511:2006 – Cold Protection	0	1	2	3	4
Convective Cold Thermal Insulation I _{TR} in m ² K/W	I _{TR} <0.10	0.10≤I _{TR} <0.15	0.15≤I _{TR} <0.22	0.22≤I _{TR} <0.30	0.30≤I _{TR}
Contact Cold Thermal resistance R in m ² K/W	R<0.025	0.025≤R<0.05	0.05≤R<0.1	0.1≤R<0.15	0.15≤R
Water Penetration	Fail	Pass	-	-	-

Performance levels are measured where the highest number indicates the best protection.
"X" indicates that the product has not been tested against this risk.

Product Code: - **WPTL7CL** Size: - 7 - 11
Product Name: - **Pred Alaska**
Product Description: - 7 Gauge Orange Polyester Terry Liner with a Black Crinkle Latex Palm Coating

- Gloves provide protection against mechanical risks and contact cold.
- Maintenance: examine gloves for damage, splits and holes before each use. Always replace damaged gloves.
- Disposal – Dispose of used gloves as instructed by your local authority.
- **WARNING:** This product contains natural rubber latex which could cause anaphylactic responses

STORAGE: Store in dry ambient conditions	AFTERCARE: No Cleaning Treatment
